OBREGON AS NEW MEXICAN HEAD **CONSIDERED**

Carranza's Military Leader May Be Chosen to Lead the Government

INTERVENTION URGED; VILLISTAS AT JUAREZ

Americans Quitting Durango and Seeking Trains to the International Line

WASHINGTON, Sept. 21.—The possibility that General Alvaro Obregon may be recognized as the provisional president of Mexico has given a new turn to the Mexican situation which, in the opinion of some officials, may provide the means for the final set-tlement of the problem.

Some weight is given to the suggestion that the plan may be what Carranza has in mind, because it would leave him free to become a candidate for the regular term. In-asmuch as the provisional president cannot be a candidate to succeed him-self, there has been some speculation as to what Carranza intends to do, it being assumed that 'he would rather be president for a full term than for only a few months.

Carranza agents here discredit the report. They say there is no doubt of the loyalty of Obregon and that Villa's followers are circulating the report to embarrass Carranza.

Asks Many Pertinent Questions Regarding Inmates of Public Institutions

are the inmates of the jails and public hospitals of California? Why are they in these institutions? What should be done to lessen their number?

To answer these questions the State Board of Charities and Corrections has been making a state-wide investigation of all the inmates of all the county jails and hospitals in the state. Stuart A. Queen, secretary, and E. P. Von Allmen, agent, of the State Board, have been working on this investigation for some time and expect to finish the study about the end of the year.

The investigators stated that although they are not yet ready to give out the results of this investigation, which is the first of its kind in California, many significant facts, both as to the individuals that fill the jails and poor houses and as to their treatment, has been secured. It is anticipated that this study will be helpful in future state legislation on the matter of misdemeanants and paupers

With the jitneys going down the ome stretch toward the wire of satisfaction adjustment of jitney trou-bles, the City Trustees last night held tight to the reins to prevent a break. They want no galloping at this stage of the race.

A treacherous trench showed up on the track last night. The trustees ordered it filled just as quickly as possible.

The possibility of disaster loomed big when M. L. House, driver of a Ford, asked for a change in his auto license from the common or garden variety of rental car to a sight-seeing car. That opened up the fact that the city ordinance allows a sight-seeing car to stand on the streets, while all other autos for hire must keep moving like clockwork.

USE COCOANUT OIL FOR WASHING HAIR

If you want to keep your hair in ood condition, the less soap you use

the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and

the scalp, makes the hair brittle, and is very harmful. Just plain mulsified cocoanut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

FAIR(?) WARNING

When Hiram Johnson was a candidate at the 1910 primaries for nomina tion for governor his opponents sent out a circular sounding warning that California could not afford to nominate him. The ground for this warning was that Johnson was not in sympathy with the national administration, and if he should be nominated the national administration would be so offended that the Panama-Pacific Exposition would go to New Orleans instead of San Francisco.

California laughed at the warning Johnson was nominated. The exposi tion did not go to New Orleans.

And now we find Congressma Julius Kahn of San Francisco, Apostle Reed Smoot of the Mormon Church of Utah, and Mike de Young's "Chronicle" warning California that ratification of the State Non-Partisan Elec tion law will prove such an affront to the leaders of the Republican party that the Republican National Convention will not be held at San Francisco in 1916.

The one consideration that will govern those who have the naming of the convention city is the political advantages which will be gained. The city that offers the party the greatest political advantage will get the con-

If that advantage can be shown for San Francisco, San Francisco will get the convention, regardless of whether the state does or does not decide to name the members of the Legislature and eleven state officials on non partisan basis.

MILITIA SERVICE

It is generally admitted that the militia organizations of the several states as a whole are not efficiently developed, and would be a weak resource in case of war. Some states have very good militia forces, but in the country as a whole this is not the

In many localities the National Guard is not a popular organization. This may be partly because these forces are sometimes used to put down strikes. If state officials reso lutely prevent the soldiery from favor ing either side in such quarrels, and merely protect life and property, this element of unpopularity would largely disappear.

Some of the states build handsome armories with pool tables, bowling alleys, dance-floors. They turn the boys loose in this pleasant club life without expense.

Yet there is in many localities a tendency to slur the militia forces. Many alleged humorists always refer to them as "tin soldiers." Considering how these "tin soldiers" responded in the Spanish war, it is fair to assume that their would-be humorous critics have never offered themselves for any purpose of national defense, or they would know better.

Militia regiments have sometimes discredited themselves by too much high links at their encampments. With a lot of young fellows, loose by themselves, red blood boils over. These sporty encampments have not been nearly so much of a factor in

recent years, since efforts have been nade to improve these organizations.

There is a lot of warm patriotism in the average young American. This feeling is very much of a motive in eeking enlistment. A well conducted militia develops manliness and physical self-command, and is entitled to support from all good citizens.

ELK CHASED TO ITS

LOS ANGELES, Sept. 21.-An elk with wide-spreading antlers was chased to death in the streets of Los Angeles yesterday. Where the animal came from is unknown, but it is be-lieved to have escaped from Griffith Park or some zoo.

Policemen, a score of motorcycles

and automobiles and hundreds of pe-destrians took part in the chase. In front of 332 Westminster boulevard, Patrolmen Hook and Cline roped the frightened animal with lariats and tied it to a tree. A few minutes later the elk dropped dead.

The chase covered several miles of city blocks.

of Solid, Healthy Permanent Flesh

Thin, nervous, undeveloped men and women everywhere are heard to say. "I can't understand why I do not get fat. I eat plenty of good nourishing food." The reason is just this: You food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out

through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge-eager and hungry for the fatty materials of which being deprived by the failure of

A SUICIDE

A report has been received here stating that A. M. Roberts, formerly a moving picture man of Santa Ana, committed suicide at 3139 Fillmore street, San Francisco, by taking pol-son. A newspaper clipping states that despondency because he had lost his job on the zone at the exposition caused the man to take poison. A note was left asking that his wife be notifled at Ocean Park.

Roberts was known here as Dr. Roberts, he having gained the title at the St. Louis fair when he was in charge of baby incubators. He was in the moving picture business here for a number of years, starting on East Fourth street. He ran the Temple Theater, which was built for leasing to him. He left Santa Ana about three years ago for Ocean Park.

MEXICAN NABBED FOR CARRYING BATTERY OF HUGE .44 REVOLVERS

Officers trailing Reynoldo Hurtado of Huntington Beach yesterday captured him on West Fourth street and arrested him on a charge of carrying concealed weapons. Officer C. I. Pond was the one who made the arrest. He first spied Hurtado walking east on Fourth street from the bicycle store of the F. M. Jones Sales Company, 217 West Fourth. Pond was on the opposite side of the street. When Hurtado saw Pond cross Fourth street in his direc-tion, he (Hurtado) turned back and re-entered the bicycle store.
Pond walked in. A search of
Hurtado's person revealed a gigantic .44 caliber revolver and a handful of cartridges. Inquiry re vealed the fact that Hurtado al-ready had sold a like gun to the Jones company. Acting on infor-mation that Hurtado had not rightfully come into possession of the artillery, Pond had Hurtado return the money received through the sale. In City Recorder J. A. Willson's court Hurtado pleaded not guilty to the charge of carrying concealed weapons. Attorney Nicholas Meyer has been retained to defend Hurtado. The date of Hurtado's trial has
